***IMPORTANT!* READ BEFORE PRINTING THIS PAGE!**

For accurate ring-size results, place a quarter over the drawing or use measure bars. The quarter should fit completely over the image so that all lines are covered, without hanging over any edges. Bars must measure exactly 1 inch or 30 mm. **Make sure "None" or "Do Not Scale" are selected** and **NOT "Fit To Page"** in the Print dialog box. Using your printed page, follow **Method A** or **B** below.

TIPS FOR FINDING YOUR RING SIZE

- Measure your finger in warm temperatures at the end of the day.
- If your knuckle is a lot larger than the base of your finger, use **Method B** below, except measure both the base of your finger and your knuckle and select a size in between the two.

TIPS IF YOU'RE BUYING THE RING AS A SURPRISE

- Ask your intended recipient's mother or friend if they know his/her finger size.
- Borrow one of your intended recipient's rings and use **Method A** below. (Make sure to borrow a ring that fits the finger you intend your gift ring to fit.)

OTHER TIPS AND INFORMATION

- When considering a wide band, move up a size from your measurement, for comfort's sake.
- The average woman's ring size is about 6. The average man's ring size is about 10.
- Your ring size will be about half a size larger on your primary hand (i.e., the hand you write with).

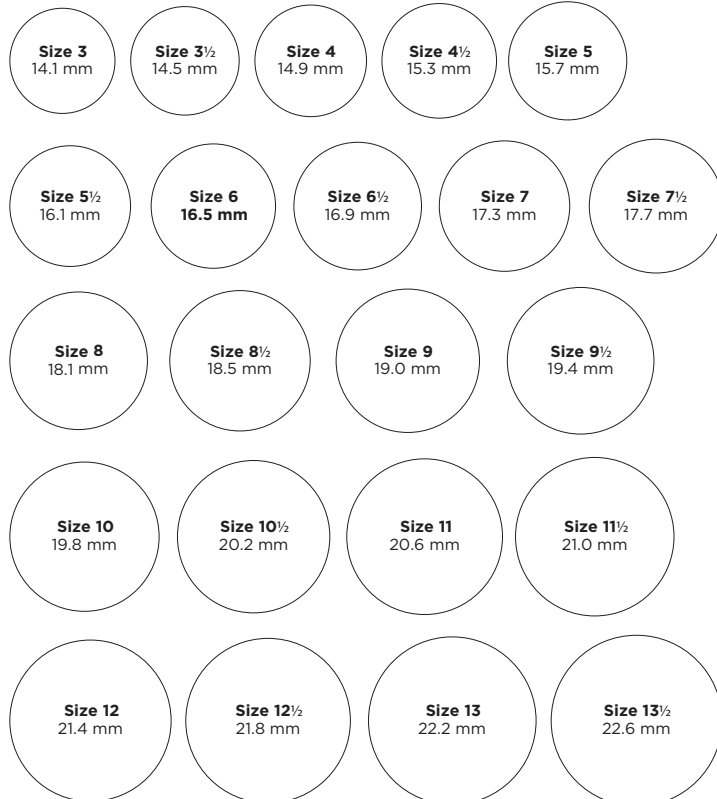

Accurate page scale

METHOD A

MEASURE A RING THAT FITS YOU (OR YOUR INTENDED RECIPIENT)

Place a ring that fits you over the circle, making sure the inside of the ring lines up with the outside of the circle. If you are between sizes, order the larger size.

METHOD B

MEASURE YOUR FINGER AND COMPARE TO THE SCALE

1. Find a piece of non-stretchy string about 6" long, or as strip of paper about 6" long and 1/4" wide.
2. Wrap it snugly around the base of your finger.
3. Using a pen, mark the point on the string or paper where it overlaps, forming a complete circle.
4. Compare the length of the string or paper to the lines on the paper below to determine your ring size. (If you are between sizes, order the larger size.)
